

## OCCUPATIONAL THERAPY

# LIFE WITH A NEUROLOGICAL DISORDER

LEARN, ADAPT, THRIVE

We provide services to help you participate in activities that you want to be able to do but may have difficulty with as a result of Parkinson's, Huntington's, Alzheimer's, Multiple Sclerosis, or another condition.

- Internal problem-solving and reasoning strategies to function as safely and independently as possible
- Specific functional skill training
- Environmental modification and adaptive equipment
- Training memory and executive functioning skills
- Training and adaptations for dressing, bathing, and grooming
- Training and assistance to complete tasks such as: shopping, meal preparations, managing finances, caring for family
- Engaging in leisure activities
